Summary

Results-driven Java Developer with 4+ years of experience in designing, coding, testing, and deploying scalable Java applications across all layers of the development life cycle. Under close supervision, I have consistently delivered high-quality code, contributed to thorough documentation, and collaborated effectively within cross-functional teams.

Experience

D.S infotech   **Dec 2024 – Present**
Java Developer   *Chennai, India*

Infosys Limited   **May 2022 – July 2024**
Systems Engineer   *Hyderabad, India*

Ojas Innovative Technologies   **Feb 2021 – Apr 2022**
Software Engineer   *Hyderabad, India*

Projects

Key Trade Bank | *Java, Rest API, Spring Boot, Microservices, React,PostgreSQL*   **May 2022 - July 2024**

Key trade bank is a digital bank which deals with daily bank functionalities like opening of accounts and integrating seamless account management, trading functionalities, and loan services. Enhanced user experience and operational efficiency by implementing advanced features and robust security measures.

- Analyzed requirements documents and collaborated with business Analysts and provided technical solutions.
- Successfully delivered the project within the specified timeline, meeting all functional requirements and quality standards.
- Followed **Agile/Scrum** methodology, weekly Sprints and stand-up meetings.
- Involved in REST API Development and batch jobs.
- Developed and optimized PostgreSQL queries.
- Standardized code for consistency and maintainability.
- Addressed SonarQube issues to ensure high code quality.

Loan Management System | *Java, Spring Boot, Micro Services, MySQL.*   **Apr 2021 - Apr 2022**

The Loan Management System (LMS) is a secure, web-based platform that streamlines loan applications, disbursement, repayment, and data access for both banks and borrowers.

- Implemented logging mechanisms.
- Developed DAO classes using Spring Boot.
- Contributed to the creation of Spring Boot service classes and entity classes.
- Wrote and optimized SQL queries for the database.
- Ensured code consistency through standardization.
- Conducted unit testing to verify code functionality.

Technical Skills

Languages: Java, Spring boot, Microservices, Hibernate, Rest API Development, React
Developer Tools: Eclipse, IntelliJ, pgAdmin 4
Technologies/Frameworks: HTML,CSS,Linux, Github,Maven,MS Azure
Databases: SQL, PostgreSQL

Awards/Achievements

- Employee of the Month - Oct'23.

Certifications

- Infosys Certified Java SE8 Developer and Infosys Certified Spring Boot Developer.
- DevOps CI/CD(Continuous Integration/Delivery for beginners) from Udemy.
- MongoDB with java Spring Boot Spring Framework from Udemy.

Education

Osmania University   Aug 2016–May 2019
Master Of Computer Applications   *Hyderabad, India*

Sathavahana University   Jun 2013–May 2016
Bachelor's Degree in Computer science   *Jagitial, India*
